

# CENTRAL ILLINOIS BUILDERS

THE CONSTRUCTION ASSOCIATION

*Member Services Committee Presents*

## 2025 SAFETY UPDATE

OSHA  
How to Utilize New GPR Technology  
to Create a Safer Job Site

**DoubleTree by Hilton Bloomington**  
**10 Brickyard Drive, Bloomington, Illinois, 61701**

Brian Bothast is a Safety and Occupational Health Specialist with OSHA in Peoria. This session will cover plain view hazards that OSHA inspectors focus on and various citations for National and Regional Emphasis areas. Brian will discuss current OSHA recordkeeping requirements, updates to the hazard communication standard, compliance timelines, and general duty clause citations. There will also be a Q&A session.

Rory Foley is NDT Manager-Cobra Concrete Cutting/Sales Rep-GPR USA and will discuss the advancement on Step-Frequency Continuous Wave GPR in Concrete Scanning as well as implementation of KML Exports in Utility Locate Surveys. His presentation will conclude with Q & A.

| Company: |       | Check One                        |                               |
|----------|-------|----------------------------------|-------------------------------|
| Name(s)  | Email | Will Attend Lunch & Presentation | Will Attend Presentation Only |
