# Weekly Report
# For the Week Ending April 11, 2025

As per our communication on Friday, please find your legislative report, which includes all legislative activity updated as of today at 12:00 PM.

Your legislative report continues to be pared down to focus solely on bills that have either advanced out of committee or passed out the chambers, providing you with a clearer perspective on the legislation that is still progressing. Bills returned to the Rules and Assignments Committees will be excluded from your report, though the DBP Team will continue to monitor their status.

Amendments continue to be placed on bills that were filed at the beginning of this legislative session. For your convenience, if an amendment was filed, we've included a synopsis of the amendment along with a link to the amendment language in the bill description column immediately below the bill summary. Please pay special attention to the new language and let us know if you oppose, support or are neutral on the bill based upon the new language.

Please let us know if you have questions or comments on any of the bills in your report. We will continue to monitor legislation and advise you of any changes that may affect your organization.

**Here is a list of important dates for your reference:**

If it's an honest mistake in proper filing, $1k not that steep a penalty for a lesson learned. Speaking to members, they are seeing a lot of out of state contractors bringing in out of state subs on smaller projects. They are saying that it should be more. Tom Cuculich agreed.<br>-PJ/Mike UCA- The trades unions are heavily supporting on witness slip filing with only the IRTBA as opposition. Our thought is to remain neutral on this one.<br>-3/26/25<br><br>(Proposed) HFA#1- Replaces everything after the enacting clause. Amends the Prevailing Wage Act. | IL 104th HB 1224 | William "Will" Davis Nicholas K. Smith Dagmara Avelar | GOVT CONTRACT RETAINAGE<br>Support. 2/6/25<br><br>Adopt federal guidelines on retainage. Only for state and state university projects. CAGC is standing with partners on the retainage bill. ICIC supports this bill.<br>(Proposed) HFA#1 - Replaces everything after the enacting clause. Removes provisions amending the State Prompt Payment Act. Defines "satisfactory progress", as used in the State Agency Retainage Act, to mean that a project is moving forward according to the established schedule and budget and that the work has been performed in accordance with industry standards and without deficiencies. Provides that a State agency may withhold moneys as retainage if and only if the State agency determines that satisfactory progress has not been achieved by a contractor or subcontractor during any period for which a payment is to be made.<br><br>(Proposed) HFA#2- Makes changes to the bill as amended by House Amendment No. 1. Provides that the term "retainage" does not include moneys withheld from grants to entities for capital improvements to non-state property. Makes changes to the term "satisfactory progress". Contains provisions concerning circumstances under which a contractor may retain payment from a subcontractor.<br><br>(Proposed) HFA#3- Replaces everything after the enacting clause with the provisions of the introduced bill with the following changes. Deletes the provisions that amended the State Prompt Payment Act. Provides that "retainage" does not include moneys withheld from grants to entities for capital improvements to non-State property. Provides that, if the contractor or subcontractor has displayed unsatisfactory performance on previous State agency projects resulting in a low performance score or suspension of prequalification, the State agency may apply retainage from the beginning of the project. Provides that, notwithstanding any other provision of law, if a State agency has not withheld retainage from a payment to a contractor on a project, then that contractor may not withhold retainage from a payment to a subcontractor for the same project. Provides that, if a State agency has withheld retainage from a contractor under the Act, then the contractor may withhold retainage from a payment to a subcontractor, but only to the extent that the amount retained from payment to the contractor by the State agency is attributable to a failure on the part of the subcontractor to make satisfactory progress with respect to the subcontractor's contractual obligations. Specifies that the Act's limitations on retainage from subcontracts apply only to subcontracts that are entered into on or after the Act's effective date of the Act in connection with a State construction contract that is subject to the Act. Effective July 1, 2026.<br><br>Creates the State Agency Retainage Act. DeWitte:<br><br>Currently IEPA approves everything regarding watermain installation, except for the hydrants. IDPH reviews the hydrants. The bill was requested by the Metro West Council of Government to streamline the plan process.<br>IDPH has "put a brick on it", specifically Brian Cox. The reasoning is a claim of protecting the public health. This came up in late 2019 when IDPH tried to put this before JCAR to require only licensed plumbers be allowed to install hydrants or any other fire related lines inside or outside the building. JCAR shot it down as it was not practical and would put the sprinkler fitters union out of business. Plumbers don't traditionally perform any of that work around the state. Plumbing companies that install sewer and water don't have their plumbers install mains, valves, hydrants, and appurtenances. Traditionally always performed by laborers and operators.<br><br>Amends the Environmental Protection Act. | | Guzmán | (Proposed) SCA#1- In provisions concerning definitions, makes changes to the definition of "thermal energy network". In provisions concerning a utility that proposes 3 pilot thermal energy network projects, requires that one pilot project include an industrial heat application that may additionally include residential and commercial applications (rather than one pilot project be focused one existing electric heat customers). Provides that priority shall be given to pilot proposals that replace leak-prone natural gas distribution infrastructure with distribution infrastructure that supplies non-combusting thermal energy or that replaces thermal energy for buildings currently heated with electric resistance heat. Provides that the Illinois Commerce Commission shall require projects submitted to a utility-scale renewable thermal energy network program for approval to include a proposed rate structure for thermal energy services supplied to network end users and consumer protection plans for end users. Provides that the Commission may approve the proposed rate structure if the projected heating and cooling costs for end users is not greater than the heating and cooling costs the end users would have incurred if the end users had not participated in the program. In provisions concerning the requirement that the Commission adopt certain rules, provides that such rules shall be adopted within 4 years of the effective date of the amendatory provisions (rather than within 4 years after the completion of the construction of all thermal energy network projects under the amendatory provisions). In provisions concerning the recovery of costs, provides that a gas public utility, electric public utility, or combination public utility developing a thermal energy network project that includes an industrial heat application may recover rates proportionally from each class of customer.<br><br>Provides that the amendatory Act may be referred to as the Thermal Energy Network and Jobs Acts. Sets forth a statement of legislative findings and intent. Amends the Public Utilities Act. Defines "thermal energy" and "thermal energy network". Requires the Illinois Commerce Commission to initiate a proceeding within 6 months after the effective date of the amendatory Act to support the development of pilot thermal energy networks. Provides that within 10 months after the effective date of the amendatory Act, every gas public utility, electric public utility, or combination public utility serving over 100,000 customers shall file with the Commission a petition seeking Commission-approval of at least one and no more than 3 proposed pilot thermal energy network projects. Requires every gas public utility, electric public utility, or combination public utility constructing or operating a Commission-approved pilot thermal energy network project to report to the Commission, on a quarterly basis and until completion of the pilot thermal energy network project, the status of each pilot thermal energy network project. Halpin<br>Cristina Castro | SCH CD-RADON TESTING<br>(Proposed) SFA#1- Replaces everything after the enacting clause with the provisions of the introduced bill, and makes the following changes: Provides that it is recommended that school districts use radon resistant new construction techniques in the construction of new schools (rather than all new schools shall be built using radon resistant new construction techniques in accordance with the American National Standards Institute/American Association of Radon Scientists and Technologists CC-1000, Soil Gas Control Systems in New Construction of Multifamily, School, Commercial and Mixed-Use 3 Buildings standard or a successor standard). Provides that the techniques shall be in accordance with the Illinois Emergency Management Agency and Office of Homeland Security. Provides that each school district may maintain and make available for public review (rather than shall maintain and make available for review) all test results. Removes the requirement that a training course be Internet-based. Provides that if confirmatory measurements verify radon levels of 4.0 pCi/L or above, the affected areas shall be mitigated within 2 years by a licensed radon mitigation professional with respect to both design and installation (rather than requiring the building to be mitigated within 2 years by a licensed radon mitigation professional). Provides that no later than January 1, 2027, the State Board of Education shall publicly post on its website available State or federal grants, appropriations, or other funding available that could be used by school districts for radon testing and mitigation. Removes the preemption of home rule powers.<br><br>Amends the School Code. In provisions concerning radon testing, provides that every school building of a school district that is occupied or will be occupied shall be tested by January 1, 2029 and shall be retested every 5 years thereafter for radon (instead of recommending that every occupied school building of a school district be tested every 5 years for radon). Provides that all new schools of a school district shall be built using radon resistant new construction techniques in accordance with the American National Standards Institute/American Association of Radon Scientists and Technologists CC-1000, Soil Gas Control Systems in New Construction of Multifamily, School, Commercial and Mixed-Use Buildings standard or a successor standard (instead of recommending that new schools of a school district be built using radon resistant new construction techniques, as shown in the United States Environmental Protection Agency document, Radon Prevention in the Design and Construction of Schools and Other Large Buildings). Removes a provision allowing a person to perform radon screening tests without a license. Makes changes concerning the exemption.
