Weekly Report
For the Week Ending May 2, 2025

This week, both chambers reconvened in Springfield to kick off the final five weeks of the 2025 Spring Legislative Session. It proved to be a busy and productive week for lawmakers as they worked diligently to advance legislative priorities, aiming for passage of bills in both chambers ahead of the scheduled adjournment on May 31, 2025.

In addition to legislative activity, numerous county and local officials were in town to advocate for increased funding and the passage of key legislation critical to their operations including Chicago Mayor Brandon Johnson.

For example, discussions surrounding the reform of Illinois' mass transit system remain ongoing, with legislators actively engaged in negotiations that they say are progressing toward a consensus, though the final structure of the proposal has yet to be seen. There appears to be broad agreement on the need to establish a more robust and empowered agency to oversee transit operations. However, uncertainty remains as to whether the Regional Transit Authority (RTA) or a newly formed agency will ultimately be the entity entrusted with this expanded role. See more here.

The following measures advanced forward in the legislature this week.

HB1189 Prevailing Wage-Federal Projects (Hoffman/Belt) - a measure to strengthen prevailing wage rules to help workers receive higher pay by clarifying that workers must receive the highest prevailing wage, whether federal or state, in local public works projects that include federal funding. The bill is intended to eliminate potential confusion when rates differ and specifically impact projects under state or local control. Additionally, the bill would codify the existing federal practice of adopting state prevailing wage, protecting it from future federal administrations rescinding the rule.

Status: The bill passed the Senate Labor Committee.

SB1531 Disposable Food Containers (Fine/Gong-Gerschowitz) - a measure to prohibit the sale or distribution of food containers containing polystyrene foam, commonly known as Styrofoam, across Illinois starting January 1, 2030. The Act does not prohibit the manufacturing of disposable food service containers that are composed of polystyrene foam for distribution or sale outside the State of Illinois.

Status: The bill passed out of the Senate chamber and will be considered in the House.

SB1723 EPA-Sole Source Aquifer (Faraci/Ammons) – a measure to permanently ban CO2 storage under the Mahomet Aquifer. The bill would also create a commission to study more on the aquifer and carbon sequestration.

Status: The bill passed the House Energy & Environment Committee.

HB1287 Health Facilities-AED Required (Manley/D. Turner) – a measure that would require nursing homes to have an automatic external defibrillator by Jan. 1, 2030. Additionally, Turner's measure requires all facility staff certified to use an AED to have completed courses in CPR and AED usage.

Status: The bill passed the Senate Health and Human Services Committee.

HB1597 Facility-Transfer & Discharge (Stava-Murray/Lightford) – a measure to end an inhumane practice known as "resident dumping" in which a nursing facility discharges a resident and refuses to readmit them after a hospital stay. The bill aims to strengthen the rights of residents in nursing homes and assisted living facilities by requiring these facilities to allow residents who temporarily leave for medical reasons to return upon discharge.

Status: The bill passed the Senate Health and Human Services Committee.

Organizations from across Illinois gathered at the State Capitol on April 30th to participate in their Advocacy Day.

Transportation for Illinois Coalition (TFIC): Nearly 60 TFIC members visited Springfield to engage with elected officials regarding matters that are important to the horizontal construction industry. Associations Participating in TFIC's Lobby Day include: Illinois Asphalt Pavement Association (IAPA), American Council of Engineering Companies (ACEC) & Illinois Road and Transportation Builders Association (IRTBA).

Illinois Hospital Association (IHA): Nearly 90 hospital and health system leaders from across Illinois participated in IHA's 2025 Hospital Advocacy Day in Springfield, holding over 100 meetings with state lawmakers. Discussions focused on key healthcare priorities, including protecting hospital funding, addressing workforce shortages, and preserving the 340B drug pricing program.

High Speed Rail Alliance: Constituents spoke with their legislators about state legislation that aims to create a growing and dynamic railway program in Illinois, and to renew Chicago's role as the nation's rail hub.

Pan-Asian Voter Empowerment Coalition (PAVE): The PAVE Coalition consists of 19 Asian American advocacy and direct service organizations who spoke with elected officials about funding immigrant services, funding for inclusive history and protecting sanctuary cities.

Art Alliance Illinois: The Arts Alliance main priority was to communicate to legislators the importance of protecting arts funding in the Governor's proposed budget. The following three pillars were the focus of their discussions: Increase public funding for the arts, ensure Arts Education for all K-12 students in Illinois, and move creative workers from surviving to thriving.

Additionally, several agencies appeared before the House and Senate Appropriations Committees presenting their FY26 budget requests. The DBP Team monitors those hearings to capture information about programmatic and budgetary changes that may be relevant to your organization.

Your legislative report continues to be pared down to focus solely on the bills that have either advanced out of committee or passed out of either chamber, providing you with a clearer picture of the legislation that is still progressing. You may notice that bills that you have been watching no longer appear in your report. This is because those bills were returned to the House Rules or Senate Assignments Committees and were excluded from your report as they are not advancing in their current format during this legislative session. Please note that we continue to monitor their status, and any amendment language that is added to active bills where the language is reappearing.

Please let us know if you have questions or comments on any of the bills in your report. We will continue to monitor legislation and advise you of any changes that may affect your organization.
